

The TREASURE CHEST SONG

Everyone needs to be themselves and be their very best
Everyone has value inside of them like a hidden treasure chest
But bullies being mean make everything a mess
Open up your treasure chest and treat everyone the best
Open up your treasure chest
And treat everyone the best

The Fliggs are sometimes bullies and they push the Elves around
They tease them and they're mean to them and they bring the party down
The Fliggs will learn that it's never right to make somebody frown
Make a friend instead and open up your treasure chest right now
Open up your treasure chest right now
Make friends with everyone right now

It's pretty easy to see that it makes no sense to make an enemy
It's so fun when everyone you see wants to be a friend to you and me
When you are playing games you should never call anyone bad names
We know that it's a waste of time to spoil the fun when we're feeling fine

It's wrong to be a bully and make somebody frown
All they do is spoil the fun and bring the party down
If someone's different from you, it's a chance to learn about something new
Be a friend to them and open up your treasure chest right now
Be a friend to everyone right now
Open up your treasure chest right now
