## **ZOPET SONG**

My Zopet is my pet who's very kind to me I always walk him everywhere singing happily My Zopet likes to play a new game every day We're always on a fun adventure, that's the only way

Hopping up and down just like a couple clowns
In the pencil playground, we just laugh and goof around
He helps me with my chores, but we are never bored
We keep each other laughing because that's what friends are for

All day long, we're having fun; the magic never ends Singing songs with everyone, we are the best of friends All day long, they're having fun; the magic never ends Singing songs with everyone, they are the best of friends

Running here and there, we play without a care
We always love exploring; there is wonder everywhere
I'll chase him just for fun, or race with everyone
I keep my Zopet safe because he is my only one

All day long, we're having fun; the magic never ends Singing songs with everyone, we are the best of friends All day long, they're having fun; the magic never ends Singing songs with everyone, they are the best of friends

And when it's time for bed for me and all my friends
We can't wait until next time when we play all day again
So when the sun goes down, the moon and stars come out
We know tomorrow will bring more adventures to be found

All day long, they're having fun; the magic never ends Singing songs with everyone, they are the best of friends
